

*Around the World at Christmas  
with The Arundel Ensemble*

# *Around the World at Christmas*

*with The Arundel Ensemble*

Christmas music has such a rich and eclectic history, we wanted to bring you a taste of familiar - and not so familiar - holiday selections from around the world. The recording is divided into three sections: the first are short renditions of carols from many countries, the second section includes some more contemporary favorites plus a beautiful arrangement of Greensleeves, and the carols in the third section include a brief introduction so you can sing along if you're so inclined!

We wish you and yours a wonderful holiday season and much happiness in the coming year!
